

What is a custom battery pack?

Engineers design and tailor custom battery packs to meet the specific requirements of a particular device or application. Unlike off-the-shelf batteries, manufacturers build custom packs to exact specifications, considering size, shape, voltage, capacity, and environmental conditions.

What kind of batteries does saphiion offer?

Saphiion specializes in designing custom lithium-ion 18650 battery, 21700 battery and lifepo4 battery in various specifications, sizes, and shapes to meet your unique needs that vow your success! We offer a range of custom lithium battery packs, including lithium iron phosphate batteries for superior performance and safety.

Why should you choose a custom lithium-ion battery?

With stringent adherence to safety standards and compatibility with diverse drone systems, our custom lithium-ion batteries cater to the unique needs of aerial photography, surveillance, mapping and surveying, search and rescue, agricultural, and more.

How long does it take to build a custom battery pack?

The development time for a custom battery pack can vary significantly based on the project's complexity. Typically, the process can take anywhere from 4 to 12 weeks. This timeline includes initial consultation, design, prototyping, testing, and refinement.

What are the advantages of custom battery packs?

One of the most significant advantages of custom battery packs is their ability to maximize space utilization. Engineers can design batteries that fit perfectly into the available space within a device, allowing for: 3. Cost-Effectiveness While custom battery packs may have higher initial costs, they often prove more cost-effective in the long run.

What is the mechanical design phase of a battery pack?

The mechanical design phase focuses on creating a battery pack that fits the device's physical constraints while ensuring proper thermal management and protection. This includes: 5. Battery Management System (BMS) Integration A crucial component of modern custom battery packs is the Battery Management System (BMS). The BMS is responsible for: 6.

Feature highlights: This 60V lithium battery pack for electric bikes and scooters features a long cycle life of 800-1000 times, advanced BMS ...

Other attributes Battery Type Lithium Ion Model Number D034-1 Brand Name Unit Pack Power Place of Origin Guangdong, China Product name Customize Lithium Battery Pack Voltage ...

Jan 24, 2024 · How to customize lithium battery for your needs in Keheng?Keheng supports customization of shape, voltage, capacity, and special function.

The 60V 20Ah Lithium Battery Pack is a high-performance energy solution designed for electric scooters, motorcycles, and golf carts. Built with durable composite/metal construction and ...

Customize 24V, 48V, 60V, 72V battery packs with 50Ah, 100Ah capacity for electric vehicles, AGV robots, and more. Durable, high-performance ...

Jul 19, 2024 · Creating your own 60V lithium ion battery pack involves selecting quality cells, designing proper series and parallel configurations, integrating a battery management system ...

Customized Power Solution: This product offers a tailored lithium-ion battery pack specifically designed for various e-bike, motorcycle, scooter, and electric vehicle applications, providing a ...

As China manufacturer of 60V Lithium Ion Battery, Large Power has been focusing on custom rechargeable Lithium Ion Battery pack for 23 years.

Discover the essential considerations for lithium battery pack customization, from battery cell and BMS selection to cost and lead time for OEM projects.

Oct 12, 2025 · Item:Customization rechargeable 48v 60v 72v electric bike scooter solar lithium battery pack Brand: Apower Model: Lithium battery ...

Custom 12v 24v 36v 48v 52v 60v 72v 10Ah 20Ah 30Ah 40Ah 60Ah Rechargeable Li-ion Lifepo4 Lithium Ion Battery Pack

Jul 26, 2024 · The lifespan of a custom battery pack varies depending on several factors, including battery chemistry, usage patterns, and ...

Feature highlights: Smart BT BMS with Lifepo4 technology, offering overcharge and over-discharge protection for NIU NQI motorcycles. Supports app parameter setting, remote ...
