

Is a solar energy project in Senegal the biggest in West Africa?

Work on a solar energy and battery storage project in Senegal, touted to be the biggest in West Africa once it goes live, is set to begin next month after an EPC (Engineering, Procurement and Construction) contract for its development was recently signed. The Kolda project will encompass a 60MWp PV solar plant coupled with a 90MWh storage system.

When will a solar power plant be built in Senegal?

"This agreement paves the way for the construction to begin in May 2025, with the deployment of a 60MWp photovoltaic plant coupled with a 90MWh storage system." Voltalia is to supply the PV infrastructure for the solar power plant, which will operate on Senegal's national grid managed by SENELEC.

What is the largest photovoltaic plant in West Africa?

Scheduled for completion in 2026, the Kolda solar farm project stands out as the largest photovoltaic plant with BESS project in West Africa. This ambitious project will set a benchmark for the region by combining large-scale solar energy production with cutting-edge battery storage technology.

Why is FMO celebrating its second solar PV & battery storage project?

Reaching this milestone is a proud moment for FMO as it celebrates its second solar PV and battery storage project signed in Senegal, enabling further integration of renewable energy sources in Senegal's energy mix.

Will a photovoltaic power plant solve Africa's energy crisis?

This photovoltaic power plant project, which aims to address the energy emergency in Africa with sustainable solutions adapted to local needs, is expected to be commissioned in 2026, he announced. "significant impact on the energy transition in Africa," he added.

What is Axian Energy doing in Senegal?

Last November, Axian Energy confirmed that it closed a EUR84 million (around \$89m) financing deal for the project set to provide clean, reliable energy for more than 230,000 people (or 25,000 households) in Senegal's Kolda in the Casamance region in the south of the country. Axian Energy said the project is scheduled to be completed by 2026.
